

## TAHITIAN NONI® JUICE CUSTOMER REVIEWS

### ENDORSED BY DOCTORS AND SCIENTISTS

Hundreds of experts have been involved in the study of noni and TAHITIAN NONI® Juice. They've been amazed by what it's done for the subjects, as well as for themselves.

TAHITIAN NONI® Juice

Weight Management

Drinks & Beverages

Personal Care

Vitamins & Supplements

Healthy Treats

I grew up in China as the daughter of a philosopher and herbalist who taught me all he knew about Chinese medicine. As a result, I knew that herbs and natural products could be very beneficial for the human body. However, when I was first introduced to noni, my first reaction was one of skepticism. Now, eight years later, I look back on my first discovery of noni, and I feel fortunate to have such an amazing opportunity to study noni in my own professional and personal life.

I have had the opportunity to see some amazing results in my clinical research of TAHITIAN NONI® Juice. I believe that with each new scientific study, noni is going to become better established as one of the most important medicinal plants the world has ever known.

University of Illinois at Chicago

When I first started working for Tahitian Noni International, I talked to a number of people about noni and what kinds of benefits they'd experienced from drinking TAHITIAN NONI® Juice. Many reported feeling healthier and having increased energy. I decided to try TAHITIAN NONI® Juice for myself—I noticed that my immune system was supported and I felt healthier. From the research I've done on the juice, I know that it can help maintain the immune system and increase energy levels.

*C. Jarakae Jensen*  
Managing Director of Research & Development  
Tahitian Noni International

As a molecular biologist and an associate research scientist for Tahitian Noni International, I have had the chance to scientifically prove what my Polynesian ancestors have known for centuries—noni works! I am now studying the noni fruit from Monday to Friday every week throughout the whole year. TAHITIAN NONI® Juice brings to you the very best of what my ancestors could offer in terms of purity, potency, and authenticity. That is something that cannot be duplicated nor copied by competitors. That is a story worth telling to our children and those who will come after us.

*Afa Palu*  
Molecular Biologist, Associate Research Scientist  
Tahitian Noni International

In October 2003, we started with an epidemiological survey on TAHITIAN NONI® Juice drinkers. With almost 2000 respondents so far, we have an excellent overview of why people take noni and which benefits they experience. Nearly everybody reports feeling better and more energetic. Many sleep better or have better intestinal digestion. And like my test subjects, I personally have found significant beneficial effects in my own health from drinking TAHITIAN NONI® Juice.

Medical Professor of Toxicology and Pharmacology  
Hamburg, Germany

### ENDORSED BY TOP ATHLETES

Professional athletes across the globe swear by the benefits of TAHITIAN NONI® Juice.

They've made it an integral part of their training regimens, and they credit the juice with helping them perform at their best.

TAHITIAN NONI® Juice has revolutionized my life. I grew up in Jamaica where noni grows wild along the coastline and in the rural areas of the island. I also grew up in a health conscious home where drinking noni was part of my daily routine, especially when I started running track. When I moved to the United States, I was introduced to TAHITIAN NONI® Juice by an Independent Product Consultant, and I loved it! I know how great noni is. Great health is invaluable.

*Isa Phillips*

Olympian and 2007 NCAA champion in the 400-meter hurdles

I was an on-again, off-again drinker of TAHITIAN NONI® Juice, until Dr. Richard Godbee started talking to me about the benefits of the juice. He recommended I drink one ounce every hour for 24 hours after one of my endurance races. So I tried it, and I felt that my physical performance had increased—I felt great. I didn't feel as tired, which is typical after a big race. TAHITIAN NONI® Juice has also been a major support to my immune system. Although I'm in good physical shape, long runs wear down my immune system. Since I started drinking the juice consistently, my immune system has been maintained, and my overall health has definitely benefited.

*David Hunt*

Ultra Marathon Runner

I began drinking TAHITIAN NONI® Juice at the recommendation of a friend. I used it during off-season training and saw my muscle recovery improve drastically. I also enjoyed an improvement in my cardiovascular endurance. With the help of TAHITIAN NONI® Juice, I am now in the best shape of my life and ready to compete with the best female basketball players in the world.

*Erin Thorn*

WNBA Guard, New York Liberty

I wanted to find something that was natural, something to help support me in my quest for better health. I started to drink TAHITIAN NONI® Juice two years ago, and it has been great. I wake up refreshed and have good days. Now we don't leave the house without drinking our TAHITIAN NONI® Juice. Sometimes professional athletes think their bodies are indestructible, but when we start to get older, we need something to help keep us healthy. I wish that I had known about this juice when I was playing! TAHITIAN NONI® Juice has really made a difference in my life.

*Dee Brown*

Former NBA Guard and Current ESPN Analyst  
1991 Slam Dunk Champion

## ENDORSED BY EVERYDAY CONSUMERS

It's not just doctors, scientists, and athletes who endorse TAHITIAN NONI® Juice. It's the everyday consumers who've made it famous!

Working professionals, stay-at-home mothers, young people, baby boomers—people of all walks are enjoying the benefits of this amazing product.

I was introduced to TAHITIAN NONI® Juice in 2000. I had been concerned about the state of my immune system, and I would frequently experience energy slumps in the afternoons. After drinking TAHITIAN NONI® Juice consistently, I was able to work from morning until night with plenty of energy. I also sleep better through the night and my immune system has been supported. After experiencing such great results personally, I want to share it with anyone I see, everywhere I go! I am so grateful to Tahitian Noni International for all that they have done for me and my family!

TAHITIAN NONI® Juice has given me increased energy, and my immune system is strong. I enjoy the consistent energy I have throughout the day that allows me to accomplish the various tasks that I set out to do each day. I have a sense of mental clarity and focus that was missing before. I truly feel that noni has made a great change to my overall wellbeing!

*Velma Dawson*

There's nothing that can really prepare someone for the final 13 miles of a marathon. The relentless pounding of the race's first half begins to take its toll on you, and both the mind and body initiate an all-out revolt. Finishing the race becomes secondary to simply surviving the race!

I recently completed my fourth Disney Marathon, setting a personal-best time in the process, and I am quick to credit TAHITIAN NONI® Juice with helping me to accomplish such a tremendous feat. I drank two to four ounces every few miles—I feel like that's what kept me going in the last half of the race. I also believe the juice continued to pay dividends after the race ended. I rolled right into work on Monday feeling great. If I wasn't drinking the juice, I really believe it would have taken me a week to feel my best.
